

### Aspire Training Services

Aspire is a proven provider of Supportability Engineering training and mentoring to international organisations and manufacturers in several sectors.

**Supportability Engineering** is a disciplined, through-life management approach for engineering assets to identify in-service support at the optimum life cost.

Aspire courses range from 'Overviews' to 'Practitioner' and 'Management' courses.

Our **COURSE CATALOGUE** is available as a downloadable PDF file on our web-site ([www.aspirecl.com](http://www.aspirecl.com)).

### Aspire Courses

- Availability, Reliability & Maintainability (AR&M)
- Reliability Centred Maintenance (RCM)
- Root Cause Failure Analysis
- Maintenance Steering Group-3 (MSG-3)
- Training Needs Analysis (TNA)
- Ergonomics (Human Factors)
- Systems Approach to Supportability Engineering
- Procurement Best Practise
- Mentoring provided on all training subjects

Details of all our courses, a **COURSE CALENDAR** and a **Booking Form** are available on our web-site ([www.aspirecl.com](http://www.aspirecl.com)).

### Course Presenters

All Aspire course Presenters have extensive practical experience of the subject matter they are presenting and we are very experienced in the provision and management of training.

### Bespoke Training

In addition to our scheduled courses Aspire tailor courses to specific client requirements and deliver that training at a time and place selected by the customer. Many of our clients find that this is the most appropriate way to satisfy their training needs. We want our customers to be completely satisfied with our courses; to that end we discuss specific requirements with the aim of providing the most **cost-effective solution**.

### Modular Process

Aspire uses a structured, very flexible, modular approach to training development, structuring and delivery of training courses. This approach, coupled with the Aspire Training Management Database enables efficient and effective tailoring of training courses to meet our customers' specific requirements.

**For More Information** about our training services please **CONTACT US**. We will arrange for our Training Manager to talk to you.

# Aspire

## Training Location

Aspire has recently moved into a dedicated training facility located on the edge of Tamworth, Staffordshire, UK. This location provides good access to Birmingham International Airport and the National Motorway and Railway networks.

One of the advantages of this in-house facility is that it broadens the exposure of delegates to Supportability Engineering specialists allowing project / task specific questions to be practically addressed.

This Datasheet is supported by a number of Aspire Training documents including:

- Course Catalogue**
- Course Calendar**
- Individual Course Details Leaflets**

These documents are available on our web site ([www.aspirecl.com](http://www.aspirecl.com)) or can be provided on request.

**For More Information** about our training services please **CONTACT US**. We will arrange for our Training Manager to talk to you.

## Training Course Feedback Comments

As a means of **continuous improvement**, Aspire provides Course Critique Questionnaires to all delegates. Samples of comments provided by delegates in the recent past are shown below:

- "I just wanted to thank Aspire for the excellent RCM course. All the attendees took a great deal away from it; it has made the team look at maintenance in a different light and has given us the tools to present the evidence to those sceptics resistant to change. The Presenter's depth of knowledge was impressive and his delivery was pitched exactly right to engage everyone in our team regardless of their experience, the course content was well crafted and relevant to our business"*
- "An excellent Course - Well done - You made something that could be very dry really interesting"*
- "Content was very good - Fantastic presentation"*
- "Good Course - well presented"*
- "Excellent would do Aspire again"*
- "An excellent and well-presented training course"*
- "Our customers have been sending their people on courses like this for over 10 years, what took us so long?"*
- "The Presenter obviously knows his stuff"*
- "This course has provided a greater understanding of many aspects of my normal duties"*
- "This course has shown where we could be slicker and have more confidence in correcting downstream disciplines"*
